Geocaching:
High tech
scavenger hunt

Welcome to Geocaching at Squaw Valley!

Use a GPS device or your Smartphone to locate the hidden caches around the mountain. The device should get you within 20 to 30 feet of the cache. Then, let the search begin!

Once you find the cache, write down the location and code number found on the inside of the box, using the chart provided on the right hand side of this brochure.

Be sure to write a note in the log sheet/journal. If you find a surprise in a box feel free to take and/or leave something in return, but please remember, these boxes are for everyone!

Our geocaches are advanced, and only visible to premium users.

In the search field, type in the Geocache coordinates. *For example, for Box 1 enter*
n39 11.728, w120 15.992

Note the use of spaces, commas and decimal points.

If you have your own GPS device, follow the instructions for entering a position.

Some users may have downloaded the Geocaching.com smartphone app.

If using a Smartphone open the Google Maps application.

N39° 11.728 – W120° 15.992
Box 1 Code # _____
Location _____

N39° 11.562 – W120° 16.330
Box 2 Code # _____
Location _____

N39° 11.334 – W120° 16.502
Box 3 Code # _____
Location _____

N39° 10.930 – W120° 16.318
Box 4 Code # _____
Location _____

N39° 10.825 – W120° 16.138
Box 5 Code # _____
Location _____

N39° 11.546 – W120° 16.560
Box 6 Code # _____
Location _____

N39° 11.271 – W120° 16.025
Box 7 Code # _____
Location _____

N39° 11.809 – W120° 16.964
Box 8 Code # _____
Location _____

N39° 11.898 – W120° 17.221
Box 9 Code # _____
Location _____

N39° 12.093 – W120° 16.179
Box 10 Code # _____
